CONQUISTADOR, SCHOOL PAPER:

STAN LARSEN

Dodge City Community College was founded in the year of 1935. The school is a public community college that is fully accredited by the North Central Association of Colleges and Secondary Schools.

The programs offered at the college are widespread, and cover four year transfer courses as well as occupational educational courses.

The institution is fully approved by the veterans administration, . . and is the only Licensed Practical Nurse program in Western Kansas.

The college started classes on its new 160 acre campus in the Spring of 1970 with nine new buildings making up the complex. The dormitory is situated near the north end of the nine hole golf course contained within the grounds. The entire Dodge City environment is conducive to a good educational background unequalled.

## THINGS TO LOOK FOR IN '75

The Dodge City Community College football team will be coming off one of their finest seasons in recent years when they finished 6-4. The 1975 squad will be bolstered by the return of sixteen lettermen, all of whom saw considerable action last year.

The Conquistador schedule will again be a very challenging one, when they meet at least six teams that were picked to the pre-season TOP TWENTY in the nation. Several tough road trips, highlighted by a journey to Northeastern Oklahoma where they have been unbeaten in 38 straight home games, shows the quality of the schedule.

The CONQ squad should be another strong defensive team, . . . a Terry Williams trademark, where four starters return to form the nucleus of a good unit. The linebacker position is of key importance in the overall effectiveness of the CONQ defense, and second leading tackler, Mike Williams, returns for his second year at the position. The defensive end position should be solid with Tom Doughty returning and the defensive backfield of Rick Evans, Billy Rivers and Tim Reece should make that area strong.

On offense, the CONQS return the Jayhawk leading passer in Lorenzo Hobbs. The 6'4" Hobbs has a great arm, and with his added dimension of running the ball, he has developed into a solid all-around quarterback. Running backs, Glenn Moore, Marvin Crenshaw and Larry Kenton provide a strong nucleus from which to build. All three have good speed and tremendous ability. Greg Bohner, a do-everything person, will be able to fill in where needed. The offensive line must be rebuilt with everyone gone, but tackle, Bob Logerman, should help at one spot.

Overall, Head Coach, Terry Williams, will be looking for some early leadership from his veterans and he hopes that the young offensive line matures quickly. If the defense can make the big play and the offense gains consistency, then the CONQS could be competitive all season long.

## HEAD COACH TERRY WILLIAMS

Head Coach, Terry Williams, will be entering into his sixth year at the helm of the CONQ Football fortunes. Williams has always had good defensive teams — which must rate as a Conquistador trademark.

Coach Williams will be coming off his best season at Dodge City when his '74 squad went 6-4. With the coming year, Williams could have some of his finest offensive players in his JUCO career.

Williams has the unique situation of always being a head coach, no matter what level of competition that he coached. His first job out of college was at Fowler H. S. in Colorado for two years, and then on to Cozad, Nebraska for six years. Finally, to Cheyenne East H. S., Cheyenne, Wyoming for four years before coming to Dodge City.

While coaching in the high school ranks, Williams was voted the Coach of the Year in both Wyoming and Nebraska. His overall record entering into his 17th year of coaching is 97-56-2.

As a player, Coach Williams was a standout four year starter at Colorado State College where the first two years he played Center, and the last two years he played Quarterback. All four years he started as a Defensive Linebacker in addition to his offensive exploits.

Williams earned his B.A. degree at CSC in 1958, and later received his M.A. at Kearney State in 1964. Coach Williams and his wife, Anita, are the parents of three children, Mike - 19, Kim - 18 and Craig - 16.

## ASSISTANT CONQ COACHES

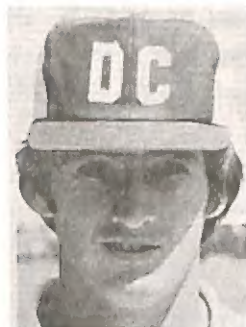

Jim Hueber joins the DCCC staff this year fresh from a one year stay at the University of Cincinnati, where he served as an assistant coach while obtaining his Master of Education Degree. Hueber's main assignment will be to work with the offensive

team, with a special emphasis on rebuilding the offensive line — which was depleted through graduation.

After the season, Hueber will do a great deal of the recruiting, and will also serve as the Track Coach.

Coach Hueber graduated from the University of South Dakota with a BA in 1971, where he played his collegiate football. His previous coaching assignments found Hueber serving as the offensive co-ordinator for two Philadelphia high schools, before going to Cincinnati.

Hueber and his wife, Barbara, have two sons, Jeff - 6 and John - 2.

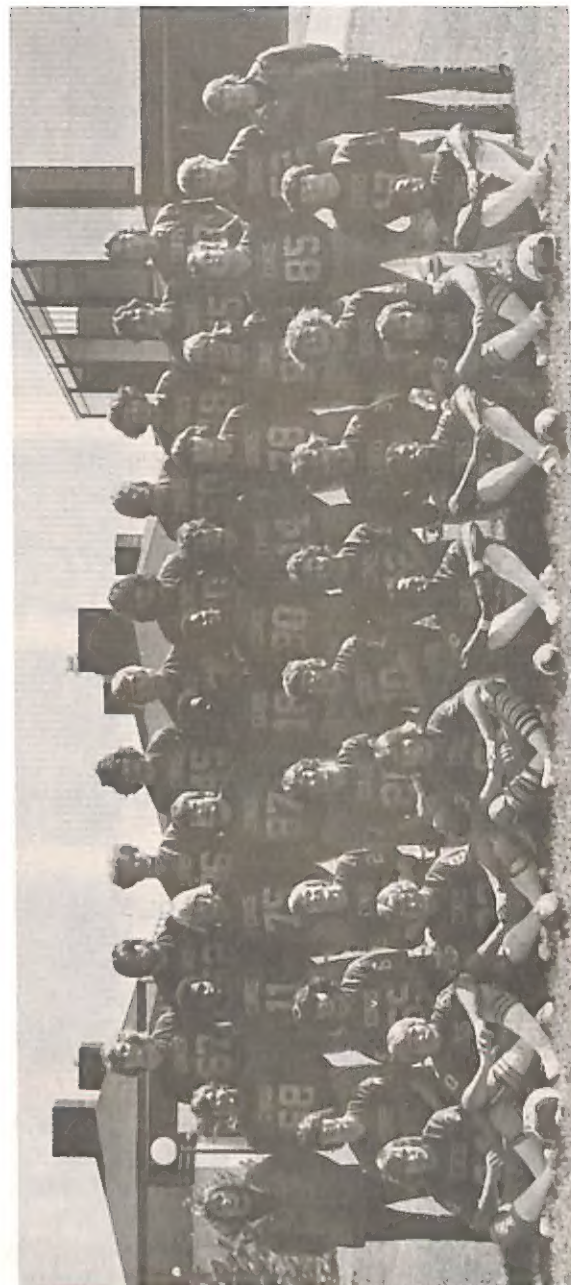

Dick Kaiser is also a new assistant coach this year. Kaiser comes to Dodge City from South Dakota State University where he received his M.S. Degree, and also served as the defensive end coach. Coach Kaiser's

coaching assignment shows him working with the defense, with a special emphasis placed on the defensive line. Kaiser is kept busy around the calendar year, as he also serves DCCC as assistant athletic director, sports information director and baseball coach.

His coaching abilities are derived from two years of head coaching experience at Pawnee H.S. in Colorado, where his overall record stood at 9-6 before going to South Dakota. Kaiser graduated with a BA degree from the University of Northern Colorado in 1972.

He and his wife, Connie, are now anxiously awaiting their first child in December.
